Time

Search time data   [Search]   Edit columns ▾   Show rows: 25

Task		Recipe		Task type		Outcome		Time (secs) ▾	
do_configure		acl		Executed		Failed		61.45	
do_compile		acl		Executed		Failed		29.66	
do_configure		base-passwd		Executed		Succeeded		11.40	
do_fetch		attr		Prebuilt		Covered		6.48	
do_package_write		base-files		Prebuilt		Sstate		2.79	
do_package_write_rpm		base-files		Executed		Succeeded		2.21	
do_patch		attr		Prebuilt		Sstate		1.40	
do_unpack		attr		Prebuilt		Covered		1.06	
do_unpack		acl		Executed		Succeeded		0.99	
do_compile		base-passwd		Executed		Succeeded		0.95	
do_populate_sysroot		base-files		Executed		Succeeded		0.85	
do_fetch		acl		Executed		Succeeded		0.82	
do_fetch		base-passwd		Executed		Succeeded		0.75	
do_populate_lic		base-files		Executed		Succeeded		0.49	
do_build		base-files		Prebuilt		Sstate		0.49	
do_patch		base-passwd		Executed		Succeeded		0.38	
do_patch		acl		Executed		Succeeded		0.16	
do_unpack		base-passwd		Executed		Succeeded		0.13	
do_compile		base-files		Prebuilt		Existing		0	
do_configure		base-files		Prebuilt		Existing		0	
do_install		base-files		Prebuilt		Existing		0	
do_package		base-files		Prebuilt		Existing		0	
do_packagedata		base-files		Prebuilt		Existing		0	
do_patch		base-files		Prebuilt		Existing		0	

Information about the CPU usage during the build, broken down per task.

http://yoctoproject.org/webhob/build-cpu.html

Information about the amount of time spent on I/O operations during the build, broken down per task.

http://yoctoproject.org/webhob/build-diskio.html
